FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Carrie Clarady, 202-245-6347.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: School Pulse Panel Data Collection Activities

OMB Control Number: 1850-NEW

Type of Review: A new information collection

Respondents / Affected Public: State, Local, and Tribal Governments

Total Estimated Number of Annual Responses: 17,280

Total Estimated Number of Annual Burden Hours: 4,752

Abstract: The School Pulse Panel is a new study conducted by the National Center for Education Statistics (NCES), part of the Institute of Education Sciences (IES), within the United States Department of Education, to collect extensive data on issues concerning the impact of the COVID-19 pandemic on students and staff in U.S. public primary, middle, high, and combined-grade schools. The survey will ask school district staff and sampled school principals about topics such as instructional mode offered; enrollment counts of subgroups of students using various instructional modes; learning loss mitigation strategies; safe and healthy school mitigation strategies; special education services; use of technology; use of federal relief funds; and information on staffing. Because this data collection is extremely high priority and time sensitive, it has begun data collection under Emergency Clearance (see OMB# 1850-0963). NCES is also submitting this parallel ICR package to undergo the usual 60-day and 30-day clearance processes so that data collection can continue beyond the expiration of the emergency clearance. NCES is not

submitting documents for review at this time; associated materials can be found under the OMB control number 1850-0963 (ED-2021-SCC-0149). New and revised documents will be included under this new number during the 30-day public review period.

The administration of the School Pulse Panel study is in direct response to President Biden's Executive Order 14000: Supporting the Reopening and Continuing Operation of Schools and Early Childhood Education Providers. It will be one of the nation's few sources of reliable data on a wealth of information focused on school reopening efforts, virus spread mitigation strategies, services offered for students and staff, and technology use, as reported by school district staff and principals in U.S. public schools. About 1200 public elementary, middle, high, and combined-grade schools will be selected to participate in a panel where school and district staff will be asked to provide requested data monthly during the 2021-22 school years. This approach provides the ability to collect detailed information on various topics while also assessing changes in reopening efforts over time. Given the high demand for data collection during this time, the content of the survey may change on a quarterly basis.
